

Job Title: Rigid Shimadzu Vertical Adapters (v1)
Contact: David Mittelstein (dmittels@caltech.edu)
Grant: MGS.PACKARD-1-PACK.2016-65143
Date: January 15, 2019

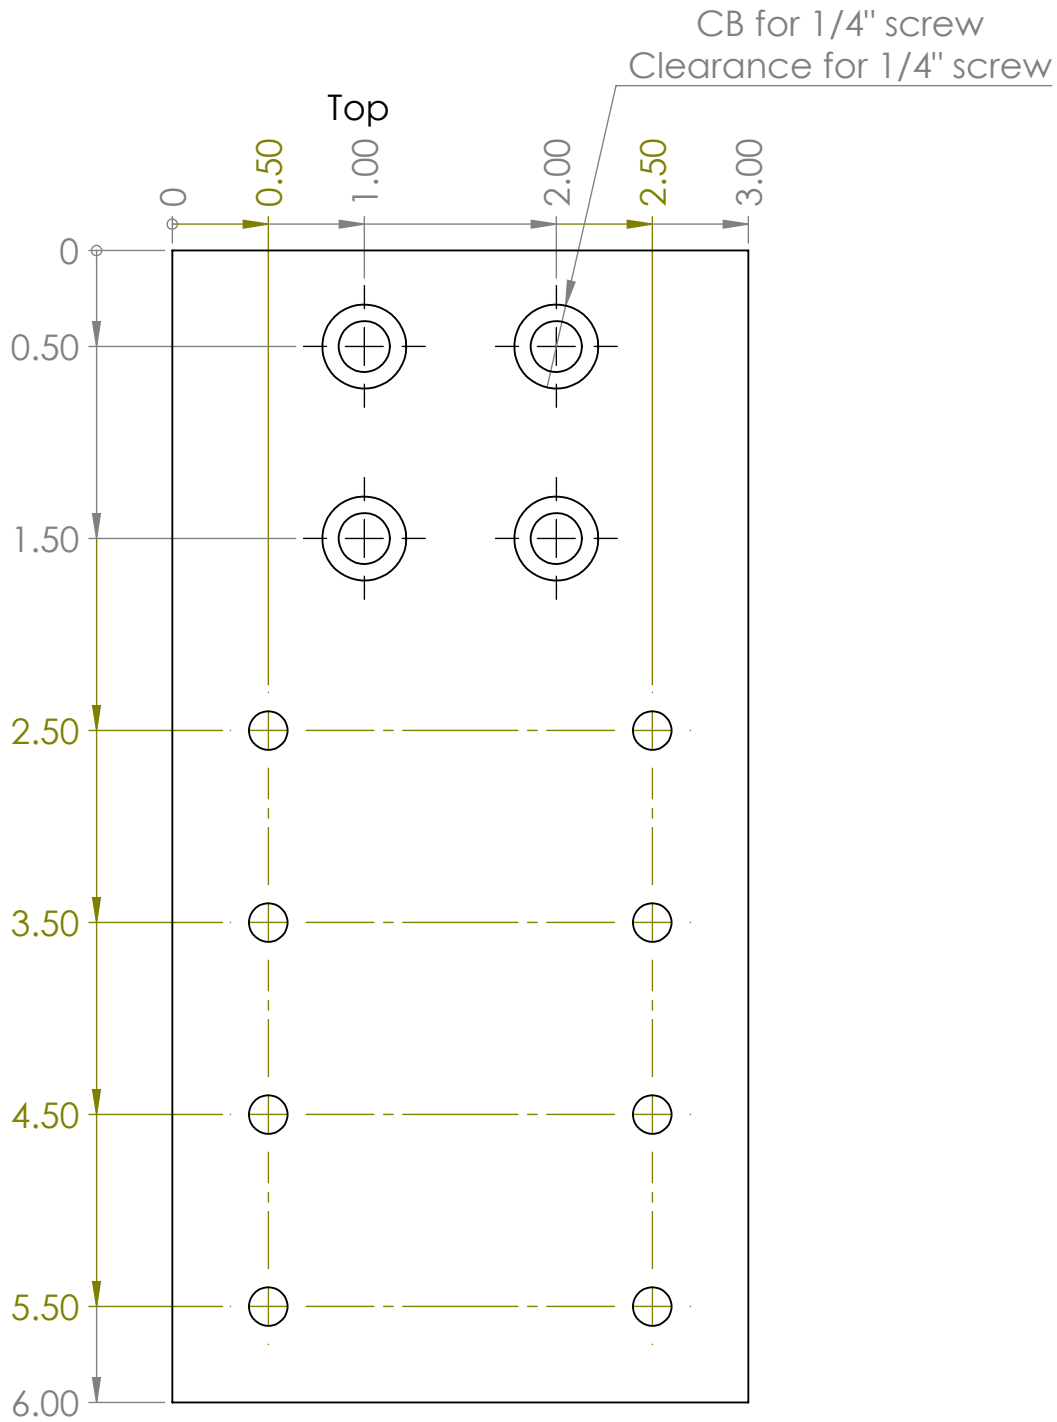

Three pieces of aluminum (material not supplied)

- * Most important is measurements between the screw holes and that counterbores
- * Precise outer dimension of pieces is not important, ideal measurements included, OK if not perfectly rectangular
- * Top and bottom surface of metal should be parallel
- * Thickness of material is not important, please use cheapest available as long as counterbores can be achieved (suggested 1/2")
