

Title: PMT / High Speed Camera Stage
Contact: David Mittelstein (dmittels@caltech.edu)
Date: Dec 4, 2018

Job Notes

Finished wood (minimal exposed wood b/c working with optics)
 3/4" thick, all THRU ALL holes must be through entire material
 Will be used as a shelf to support ~100 lb of equipment
 48 clearance screw holes for 1/4" screws
 24 counterbore clearance screw holes for 5/16" hex screws
 * Important that counterbore is complete and screws are not sticking out
